PHASE COMPLETION:
12-16 Weeks

Hawaiian Dredging Construction Company (HDCC), Inc., on behalf of the Naval Facilities Engineering Command (NAVFAC) Hawaii, started work on the Waiawa Navy Waterline Project for Joint Base Pearl Harbor-Hickam on August 12, 2019.

Phase 2 of the project will involve electrical upgrades at the top of Waihona Street. **Sidewalks and parking in the area will be restricted or have limited access.** The restricted area is indicated in red on the map above. Residents and motorists near the project site are asked to observe all traffic signs, anticipate/plan for possible delays, and drive with caution. Project updates will be available, 24/7, at www.waiawanavywaterline.com. All interested members of the public may sign up at the website to receive automatic project updates. HDCC and NAVFAC Hawaii will make every effort to provide timely project information to the local community throughout this project.

Please direct all questions or concerns during normal business hours to the Waiawa Navy Waterline Project Team, (808) 392-1617, or email info@waiawanavywaterline.com.
